

KORE ko71 metal chair

design Mikko Halonen

Kore collection has been designed for canteens and cafes. It is also a good choice for modern learning environments. Thanks to the compact size of the Kore chair it is possible to have maximum amount of seat places without any compromise in seat comfort.

The Kore chair and table with steel frame complete the Kore collection. The ease of the maintenance has especially been considered when designing the Kore collection. Kore chair can be hanged under the table top, between tabletop and frame, for making the clean-up of the tabletop and floor going smoothly. And no additional hanging equipment is needed.
