

## TEMPO t46 bench

design Timo Saarnio

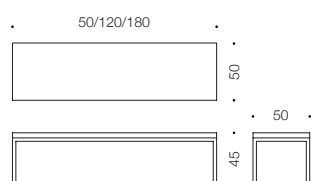

Tempo benches can be used in public spaces as in libraries, museums and modern learning environments. They have a strong steel frame powder painted in standard colors or according to the interior plan. The seat is made of solid wood or with upholstery.

There is also a bench with back rest (t47) available. For outdoor use the Tempo benches are produced with weatherproof materials the seat being e.g. oak and the frame zinc plated and powder coated steel.

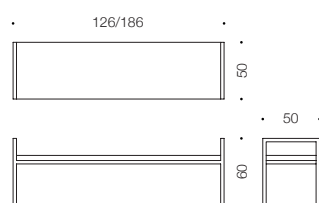

Thanks to the clear forms and the structure of the Tempo bench it can be used in various interiors and functions.
